#### TARGET AUDIENCE

The primary target audience of the 26th Annual Congress includes Phlebologists, General Surgeons, Vascular Surgeons, Interventional Radiologists, Interventional Cardiologists, Dermatologists, Dermatological Surgeons, Internists, Family Practice Physicians, Plastic Surgeons, Obstetricians/Gynecologists, Physician Assistants, Ultrasound Technologists, Nurses, allied health and all other healthcare professionals currently or planning to care for patients with venous disease.

#### CONFERENCE OBJECTIVES

After completion of this activity, participants should be able to:

- » Use selective testing modalities to diagnose chronic venous disease and insufficiency of the abdomen, pelvis, and extremities or other venous pathology including deep vein thrombosis and vascular malformations
- » Describe and demonstrate the various techniques for treating venous disease
- » Distinguish indications and contraindications for different treatment modalities
- » Measure and compare the outcome of the various techniques in treating venous disease

#### **EVALUATIONS AND CERTIFICATES**

In order to document your attendance and receive your certificate at the 26th Annual Congress, you will need to complete an evaluation. This will permit the American College of Phlebology (ACP) to continue to enhance your personalized professional development and plan the ACP hosted 2013 World Meeting of the International Union of Phlebology and 2014 American College of Phlebology Annual Congress. Once you have completed the evaluations, you will be able to access your certificate. Computer stations will be set-up onsite at the conference to provide feedback immediately or, at your leisure when you return home.

#### ACCREDITATION AND CREDIT STATEMENTS

The American College of Phlebology is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The American College of Phlebology is an approved Continuing Education Provider by the California Board of Registered Nursing - Provider Number CEP 15857.

#### DISCLOSURE OF CONFLICT OF INTERESTS

The American College Phlebology requests all persons in a position to control the content of an educational activity to disclose whether or not they have any relevant financial relationships prior to the start of an activity. This information will be made available to attendees onsite.

## Message from the Program Chairs

On behalf of the 2012 Program Planning Committee, it is with great pleasure that we invite you to attend the 26th Annual Congress of the American College of Phlebology. As co-chairs, we have tried to create a unique program with a blend of previously successful topics with some new thought-provoking ideas. This meeting promises to be a fantastic event filled with several surprises, expert faculty from around the world, and material covering everything from basic topics to the most advanced issues in venous disease.

Program Co-Chairs: Julianne Stoughton & Diana Neuhardt

#### SOME OF THE GENERAL HIGHLIGHTS INCLUDE:

- » Pre-congress activities which will offer both basic and advanced phlebology tracks, in addition to an ultrasound pathway, and a timely practice management full day program
- Hands-on Workshops for all practitioners including: Ultrasound, Ambulatory
   Phlebectomy, Sclerotherapy, and Compression/Wound Care
- » An extensive selection of hands-on ultrasound experiences every day... and more LIVE ultrasound cases for enhanced learning
- » Aesthetic course on Sunday for those who either want to enhance their cosmetic outcomes, and/or add some cosmetic procedures to their practice
- » Focus on presenting the very best quality abstracts on timely topics
- » Focus on the debate format and audience response system to help foster active learning and to stimulate controversies
- » Continued expansion and presence of renowned international faculty
- » Two keynote speakers, both well known for their insights and contribution to the field of phlebology and venous disease (Michael Jaff, DO and Steven Talbot, RVT)
- » Advanced phlebologists will enjoy a more lively debate on many pertinent topics and controversies
- » Comprehensive patient based learning with many live models and case presentations
- » Multidisciplinary/ Nursing track running concurrently throughout the meeting, offering excellent pertinent didactics
- » Variety of additional topics for Phlebologists including: Emergency Preparedness, Laser Safety, Practice Management, EMR, Practice Based Research/ Study Design, etc.
- » Opportunity to present your challenging cases for discussion with the audience and a panel of experts in phlebology

Located steps away from the Atlantic and Blue Wave Certified beaches, and just moments from the mature Banyan and Royal Palm trees of their championship golf course, 30,000 square foot signature spa or numerous local shopping and dining options, the Westin Diplomat Resort & Spa is the complete experience for those attending the 26th Annual Congress.

## WE LOOK FORWARD TO SEEING YOU IN HOLLYWOOD, FLORIDA AT THIS MEMORABLE EVENT!

## **Become RPhS credentialed!**

The Registered Phlebology Sonographer (RPhS) credential is for physicians, sonographers, nurses, physician assistants, and other associate health professionals who utilize ultrasound to treat vein disorders.

"The development of ultrasound has been the most important single factor stimulating the creation of the specialty of phlebology and improving our understanding and treatment of chronic venous disease. The **RPhS** credential is important because it is the only credential we have that addresses the full breadth of the practice of ultrasound in phlebology. It addresses not only deep venous thrombosis evaluation, but venous reflux and ultrasound in venous procedures as well."

 Eric Mowatt-Larssen, MD, FACPh, RPhS Vein Specialists of Monterey, California

#### AESTHETICS AND VENOUS PATIENTS: A VIABLE PARALLEL FOR THE PHLEBOLOGIST

Moderators: Colin Bailey, MD, FACS, Thomas Proebstle, MD, MSc and Neil Sadick, MD, FACP, FACPh, FAAD, FAACS

This session will provide a broad overview of cosmetic procedures that can be successfully incorporated into a vein practice. The procedures are in high demand and when performed properly have a high degree of patient satisfaction. Beginning and advanced users of Botox and Fillers will take their practice to a new level. For more surgically oriented procedures the participants will finish the session with an enhanced understanding of what training and mentoring options are available for safe integration into ones practice.

#### American College of PHLEBOLOGY

#### Educational Materials to Help Grow Your Practice

#### Patient Education Brochure: Treatment of Varicose and Spider Veins

With two language versions - English or Spanish - this public education brochure, written in clear, non-technical language is suitable for your front office or patient mailings. The 12-page, saddle-stitched brochure is 4" wide x 9" tall and printed on high gloss stock. The ACP can also customize the brochure with your office information (affixed as a label to the back) upon request.

#### ACP Members: \$50.00 per 100 brochures Non-Members: \$100.00 per 100 brochures

To order online, download forms, calculate shipping & other options, visit www.phlebology.org/resources/patiented.html

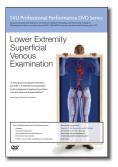

#### Patient Education Poster: The Venous System

Available in two sizes - large (18" x 24") and small  $(8.5" \times 11")$  - this poster is a valuable tool for you to use in your waiting or treatment rooms as you discuss the venous system with your patients. All posters come laminated unless otherwise requested.

#### ACP Members: \$25.00 standard size

Non-Members: \$35.00 standard size

For complete info, visit www.phlebology.org/resources/patiented.html

#### Lower Extremity Superficial Venous Examination DVD

The American College of Phlebology has partnered with the Society for Vascular Ultrasound (SVU) to create an educational DVD to demonstrate techniques of a lower extremity superficial venous examination. This DVD includes a comprehensive didactic PowerPoint presentation, patient examination and ultrasound clinical demonstration of a venous insufficiency evaluation.

The guidelines followed in the DVD are not intended to replace internally generated, laboratory specific protocols, but are to serve as a basis for developing or updating the procedure described.

#### ACP Members: \$75.00 Non-Members: \$110.00

For complete info, visit http://www.phlebology.org/education/distancelearning.html

#### Text Book: Core Curriculum for Phlebology Nursing

Written in outline format for easy reference, the Core Curriculum textbook establishes patient care standards for phlebology nursing. Several important sections include "Nursing Intervention Classifications", which can be used for each patient's individual nursing care plan and "Professional Issues", which is an important resource for nurse managers.

#### ACP Members: \$30.00

Non-Members: \$45.00

For complete info, visit www.phlebology.org/resources/textbooks.html

#### Text Book: The Fundamentals of Phlebology

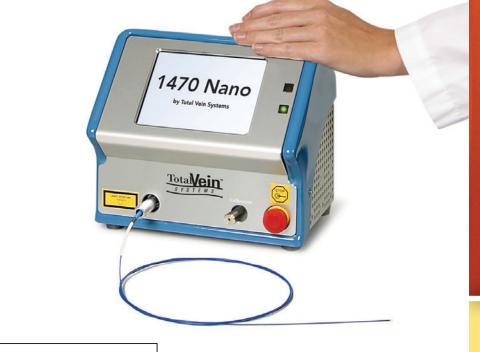

Compiled by Dr. Helane Fronek, a leader in the field of phlebology and Past President of the ACP, this fundamentals textbook is a "must-have" for any office involved in vein care and a "must-read" for those looking to improve the quality of patient care. The seventeen informative chapters include: endovenous thermal ablation; sclerotherapy of telangiectasias and reticular veins; venous anatomy and pathophysiology; sclerosing solutions; venous leg ulcers; and much more.
