2021 AVLS ABSTRACT SUBMISSION

General Information

- 1. Deadline:** Abstracts may be submitted until Wednesday, June 30, 11:59 PM Eastern Time (US).
- 2. Payment:** There is no charge for submission.
- 3. Prior Publication Policy:** Abstracts presented at the AVLS Annual Congress must be original work and not have been previously published or presented. In the event the research has been previously presented or published by your institution, additional documentation will be required for submission to include: Publication Date, Event and Outcome. Final acceptance of abstract will be subject to AVLS for approval.
- 4. Editing Abstract Submissions:** Until the Abstract Submission Deadline, the submitter can return to the site to edit their abstract. NO REVISIONS will be allowed once the site closes on Wednesday, June 30, 11:59 PM Eastern Time (US). Authors cannot be added, or the order rearranged after this deadline.
- 5. Co-Author Review:** The submitter is responsible for ensuring that ALL co-authors agree to the submission of the material prior to finalizing the submission. Confirmation of abstract acceptance or rejection will be emailed only to the submitter listed on the abstract. Failure to obtain permission to publish from co-authors may result in abstract rejection.
- 6. Meeting Registration & Attendance:** Upon submission and abstract acceptance/confirmation, the presenting author of the abstract agrees to be a paid registrant for the Virtual or Live event as an attendee for the 2021 AVLS Annual Congress to present their work. The accepted author must be available for Q/A at the time of presentation. Online registration and program information is available at www.avlscongress.org. Contact AVLS by phone (+1-510-346-6800) or email (education@myavls.org) with any questions. Attendee registration is scheduled to open on April 15, 2021. Abstract acceptance emails will contain a discount code good for 10% off meeting registration. The use of the discount code is limited to abstract presenters only and will be provided after the completion of the initial judging has been achieved. The presenting author will receive a letter of acceptance and must respond confirming attendance (In-person or Virtual attendance) no later than August 15, 2021, 11:59 Eastern Time (US).
- 7. Authorship:** Authorship on multiple abstracts is permitted. However, if the same institution has more than one abstract selected from the same first author, then the presenting author must be different individuals. That is, for each abstract from the same institution, the presenting author must be a different presenter for each abstract. In the event the same institution is unable to select an alternate presenting author where multiply abstracts have been accepted. AVLS reserves the right in determining the final disposition of eligibility for judging or presentation.
- 8. Abstract Format:** Introduction, Objective(s)/Purpose, Methods, Results, Conclusion, References. Note that references of selected and presented abstracts will not be published, and therefore in-text citations should not be used.
- 9. Figures & Graphics:** All lettering, symbols, and lines should be clear, distinct, and of sufficient resolution for print publication. There is a limit of three (3) images per abstract and a file sizes cannot exceed 20 MB. Accepted file types are .png, .jpeg, .jpg, and .gif.

- 10. Tables:** Tables can be copied and pasted into the system from other software applications, such as Microsoft Excel or Word. There is a limit of one (1) table per abstract. Tables should be kept simple and focused to allow formatting for possible publication.
- 11. Judging:** Judging is a two-step process: Initial (blinded review) and Final (in-Person, Virtual).
- Initial Abstracts are reviewed and graded in a blinded fashion by the Annual Meeting Abstract Review Committee. For this reason, author, co-author names and affiliated institutions should be omitted from the body of submitted abstracts. Committee members will recuse themselves from judging abstracts when a potential conflict of interest exists. Abstracts are graded on statistical scoring and analysis, study design, originality and innovation, adherence to abstract formatting instructions, and relevance to the field of venous and lymphatic medicine.
 - Abstracts receiving the best scoring results, upwards top 30, will be accepted for Oral presentation, while other abstracts will either be accepted for Poster presentation. In the event the Abstract Review Committee deems there are multiple abstracts to be of the same quality, the committee reserves the right to place the presenting abstract author within a specific program content area or the abstract is rejected, rarely.
 - Final Abstracts and Posters are presented by the designated author to the Annual Meeting Abstract Review committee (in-person, Virtual). The judging occurs over the designated time slots during Annual Congress. Each abstract and poster is allotted specific time to present, followed by a dialog in which the defending author will dialog with the committee on the research presented. Final presentation awards are presented on Sunday at the close of Annual Congress.
- 12. Publication:** Accepted and presented oral and poster abstracts will be published as an electronic supplement of the Phlebology Journal. Note that abstracts that are not presented will not be submitted for publication. It is the legal responsibility of the author(s) to ensure that submitted material was not previously published and is free of any claim related to copyright infringement. Note that the AVLS supports, and the Phlebology Journal adheres to the Core Practices, Code of Conduct, and guidelines of the Committee on Publication Ethics (COPE).
- 13. Awards:**
- Oral Abstracts:** First, second, and third place awards will be given in the categories of Best in Show for a Non-Trainee. And a Best in Training for Fellows, Residents and Medical Students will be awarded to the highest rated abstract. Winners in the Best in Show for a Non-Trainee category will receive a complimentary registration to the 2021 AVLS Annual Congress, and eligibility to present their work at Annual Meetings of the 2022 European Venous Forum (EVF) with a travel/lodging stipend up to \$2,000. Second and third place will receive a 50% and 25% discount, respectively, on 2021 AVLS Annual Congress registration. Medical students, residents, and fellows in addition to those practicing 0 - 5 years will be eligible to win the Best in Training Award. The single winner in this category will receive eligibility to present at the 2022 Royal Society of Medicine Venous Forum with a travel/lodging stipend up to \$2,000. The winner will receive complimentary meeting registration for the 2021 AVLS Annual Congress.
 - Poster Abstracts:** First, second, and third place prizes will be awarded for Poster Presentation Best in Show irrespective of training level. The top 15-18 posters accepted will have an opportunity to make an oral presentation of their poster which will be limited to three (3) minutes with two (2) minutes of questions and answers by the judging panel. Winners will receive

a discounted registration for the 2021 AVLS Annual Congress (1st 50% off, 2nd – 25%, 3rd – 10% off). All accepted posters abstracts accepted for the 2021 Congress will receive a 10% discount on this year’s registration. In addition to the winning poster abstracts, Honorable mentions may be awarded by the judges in 2021. Recipients of an honorable mention will receive a 10% discount on their registration for the 2022 Annual Congress in New Orleans.

14. Abstract Withdrawal: Abstracts may be withdrawn by sending an email to Joyce King, Director of Continuing Medical Education, at education@acpmail.org. Requests must be made by the abstract submitter no later than August 15, 2021@11:59 Eastern Time (US).

15. Presentation Scheduling: Abstract presentations will be scheduled by the Annual Congress Planning Committee. Presenting in-person authors will not be allowed to reschedule their presentations except for religious reasons. Virtual presentations will occur at the designate assigned times by the Annual Congress Planning Committee, without exception, October 7 – 10, 2021.

Failure to comply with any of the above rules may lead to an abstract being rejected by the Annual Congress Planning Committee, as well as disqualification of abstract submission for the following two (2) consecutive years at the discretion of the planning Committee. Gross violation of research or publication ethics may result in exclusion from all future calls for abstract submission.

Submission Information & Format

Submitting authors should review the following information prior to submitting their abstract(s).

1. Timeline: Abstracts must be submitted electronically by Wednesday, June 30, 11:59 PM Eastern Time (US). Incomplete submissions or late submissions will not be

considered. Submission of an abstract for consideration by the AVLS Abstract Review Committee carries with it the implicit obligation that, if accepted, the individual identified as the presenting author will register for the meeting and present their work at the meeting (between October 7-10, 2021). Declining or not responding to the invitation to present may adversely affect consideration of future abstract submissions. The AVLS anticipates that notification of abstract acceptance will go out by July 30, 2021. The deadline for acceptance (In-person, Virtual) is August 15, 2021, 11:59 Eastern Time (US)

2. Abstract Text: All abstracts must be in English. Standard abbreviations may be used without definition (e.g., GSV, CVD, VLU). Nonstandard abbreviations should be placed in parentheses after the first use of the word or phrase and should be kept to a minimum. Character limits will be enforced by the online submission system. Additionally, and in accordance with the AVLS’ policy that English is the official language of its Annual Meeting, all abstracts should be presented in English.

3. Informed Consent & IRB: Any study involving human subjects must conform to the principles of the Declaration of Helsinki of the World Medical Association (Clinical Research 1996: 14:103) and must meet all the requirements governing informed consent of the country in which the study was performed. Study clearance through an institutional review board (IRB) as appropriate is required. If the abstract involves animals for experimentation, the study must conform to the Institutional Animal Care and Use Committee (IACUC) as required by the Public Health Service (PHS) Policy on Humane Care and Use of Laboratory Animals, or equivalent for international investigators.

4. Off-Label & Unapproved Uses: Abstracts that include information in whole or in part related to non-FDA approved uses for drug products and/or devices must clearly state the off-label indications or the

investigational nature of their proposed uses within the body of the abstract as well as in writing during the presentation of accepted abstracts (both oral and poster).

- 5. Abstract Categories:** Select one of the following abstract categories:
- Basic Science
 - Compression Therapy
 - Deep Venous Insufficiency
 - Deep Venous Obstruction
 - Innovations
 - Lymphatic Disease
 - Other Venous or Lymphatic
 - Pelvic Vein Insufficiency and Disorders (Pelvic Congestion Syndrome)
 - Perforator Venous Insufficiency
 - Scientific Reporting – AVLS PRO Venous Registry Reports
 - Scientific Reporting – Outcomes Reporting
 - Scientific Reporting – Quality of Life Assessments
 - Scientific Reporting – Technological Advances
 - Superficial Venous Insufficiency
 - Superficial Venous Intervention – Endovenous Ablation
 - Superficial Venous Intervention – Miscellaneous
 - Superficial Venous Intervention – Sclerotherapy
 - Superficial Venous Intervention – Surgical
 - Superficial Venous Intervention – Venotonic Drugs
 - Venous Governance, Ethics, Law, Reimbursement, Accreditation, and Coding
 - Venous Thrombosis and Pulmonary Embolism
 - Venous Training and Education
 - Venous Ulceration
 - Venous/Lymphatic Diagnostics and Laboratory
 - Venous/Lymphatic Malformations
- 6. Title:** An abstract title should be kept short and specific so that it clearly communicates the nature of the investigation. Do not

include abbreviations, author names, or trade names. Titles are limited to 300 characters (approximately 50 - 60 words).

- 7. Presentation Preference:** Indicate your presentation format preference in the electronic submission system. Submitters can select Oral Presentation, Poster Presentation, or Oral or Poster Presentation. Note that selecting Oral Presentation rather than Oral or Poster Presentation may result in the submitter receiving a decline message rather than an invitation to present a poster if the abstract is not selected for oral presentation.
- 8. Submitter & Author Information:** Provide all authors' names, titles, professional affiliations or organizations, and email address and telephone number. Note that the submitter does not need to be an author. Indicate which author would present the work if selected and identify the order in which authors should be listed.
- 9. Disclosure:** The AVLS is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. As such the AVLS requires that all associated authors must submit a disclosure of financial interests so that any potential conflicts of interest related to the content of the abstract can be identified and resolved prior to inclusion in the CME program. While the electronic abstract submission system will send an email to identified co-authors inviting them to complete a financial disclosure form it is the responsibility of the submitter to ensure that co-author disclosures are submitted by the deadline June 30, 11:59 PM Eastern Time (US). Abstract submissions cannot be finalized until all disclosures are received.
- 10. Introduction, Objectives, and/or Purpose:** A precise statement of the primary objective(s) or purpose of the study. A maximum of three objectives beginning with verbs and listed in a numbered format is recommended. This section is limited to 1,500 characters (approximately 225 - 300 words).

11. **Methods:** This section is limited to 1,000 characters (approximately 150 - 200 words) and should summarize the following:
 - Study design
 - Dates (months, years) the study spans
 - Disease or condition studied
 - Subjects studied
 - Study setting
 - Interventions
 - Outcome's measurements
 - Other important variables
 - Analyses and statistical methods (preliminary for ongoing studies)
12. **Results:** State the main outcome(s) of the study, including confidence levels or P values as appropriate. This section is limited to 7,500 characters (approximately 1125 - 1500 words).
13. **Conclusion(s):** A precise statement of conclusion(s) directly supported by the study results, giving equal emphasis to positive and negative scientific findings, and implications for future research or clinical practice. This section is limited to 2,500 characters (approximately 250 - 400 words).
3. The AVLS is not subject to any confidentiality requirements with respect to submitted abstracts. In addition, compliance with any disclosure or nondisclosure requirements that apply to researchers or research sponsors (whether under federal securities laws, contract agreements, or otherwise), it is the sole responsibility of the researcher and/or sponsor, and not the American Vein & Lymphatic Society.
4. Any author who agrees to present their work must present only the material described in the accepted abstract.
5. The 2021 AVLS Annual Meeting is a continuing medical education (CME) event. According to the American Medical Association (AMA), the organization that owns the credit system, continuing medical education consists of educational activities which serve to maintain, develop, or increase the knowledge, skills, and professional performance and relationships that a physician uses to provide services for patients, the public, or the profession. The content of CME is that body of knowledge and skills generally recognized and accepted by the profession as within the basic medical sciences, the discipline of clinical medicine, and the provision of health care to the public. (HOD policy #300.988) All recommendations involving clinical medicine in a CME activity must be based on evidence that is accepted within the profession of medicine as adequate justification for their indications and contraindications in the care of patients. All scientific research referred to, reported, or used in CME in support or justification of a patient care recommendation must conform to the generally accepted standards of experimental design, data collection, and analysis.

Other Guidelines

1. Investigators should not submit the same research more than once unless new objectives are identified, and new analyses performed. Abstracts that appear to be a replicated version of a single study will be rejected.
2. All submitted abstracts are disclosed to members of the Abstract Review Committee, AVLS employees, and contractors as necessary in connection with the scientific abstract program of the AVLS Annual Meeting. Accepted abstracts will be made available to meeting attendees through both the meeting website and mobile app. Abstracts presented orally will be recorded for use in the AVLS' Online Education Center.

HOPE TO SEE YOU!
AVLS 2021
